

# Picket Railing

## Many Choices in Styles and Colors

**5 Point offers many picket railing options from several manufacturers. This gives you access to a wide variety of top rail profiles, standard colors and rail configurations.**

**Whether you're looking for the most basic welded picket panels or you want to design a unique rail configuration using wide pickets, double top rail, basket pickets, or a between the post top rail, we've got it covered. Let us help you design the best system for your needs.**

**We also offer a made in America picket rail system that offers a premium wet coat baked enamel finish. This system not only boasts thicker wall aluminum extrusions than most available products, but is also available for installation within just a couple days of ordering.**

## Key Advantages to Aluminum Picket Railing

- **Low Cost** – More affordable than composite railing and a wise investment over wood railing.
- **Attractive** – Color and style options make it easy to enhance your homes appearance.
- **Low Maintenance** - No need for annual stripping and refinishing chores.
- **Durability** – Aluminum is perfectly suited to resist corrosion from our rainy NW weather. Factory applied powder coating ensures a lifetime finish.
- **Safe** - Pre-engineered components and systems that make your railing is compliant to all current building codes.

## It's an Easy Choice

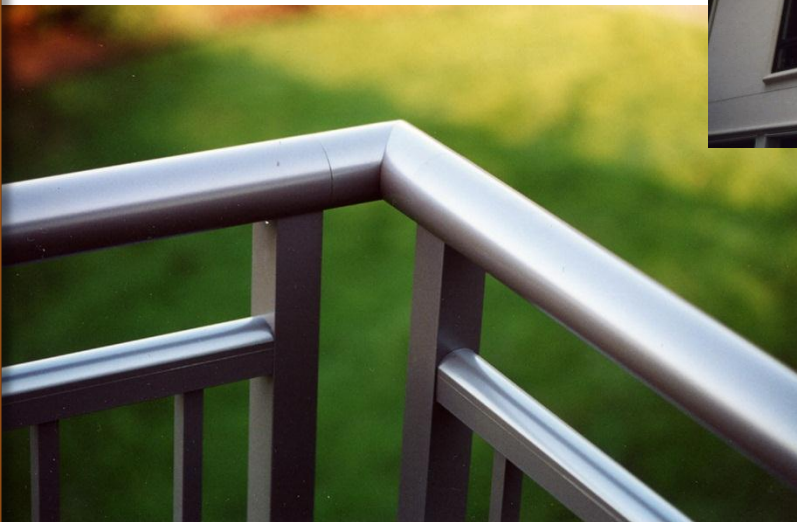

**Powder Coated aluminum picket railing is the ideal combination of style, value and low maintenance.**

# Aluminum Picket Railing Can Suit Any Style!

Simply changing the color of picket railing can alter the perception of its style. A picket railing in white is very crisp and sharp while the same railing in black becomes more muted. Silver matte is very contemporary feeling while a brown can seem a little more rustic.

Choose from many configurations of components to craft the railing design to project your homes style.
